About SIATech

SIATech is a tuition-free public charter high school that specializes in working with "at promise" students get back on track and earn their high school diploma. Our goal is for every student to become life-long learners and productive members of society.

At SIATech Gainesville, we provide Real Learning for Real Life. We are not a traditional high school. Our students learn life lessons through teacher instruction with computer assistance. Our curriculum is competency based, which allows students to progress as they demonstrate mastery of academic content.

SIATech Gainesville is not a GED program. We follow the State of Florida guidelines for testing and assessments and offer a standard high school diploma. We also have a dedicated staff waiting to help you achieve your goal of high school graduation and beyond.

Come and enroll in the "Mighty" SIATech Gainesville and be a part of an amazing organization that is making a difference in our community one student at a time.
